

Feeney, Inc. Limited Warranty: LED Lighting Products

Feeney, Inc. warrants its lighting products (“Product(s)”) will: (i) meet the performance criteria outlined in the published specifications, and (ii) be free from manufacturing defects in material and workmanship for the stated warranty period, subject to the terms provided in this limited warranty (“Warranty”). The published specifications and applicable warranty periods are posted at www.feeneyinc.com

Feeney, Inc. will, in its sole discretion, (i) repair any Product, (ii) provide a replacement, or (iii) elect to reimburse the amount of the original purchase price. Feeney is not responsible for any other expenses resulting from a warranty claim, such as shipping, labor or other costs or expenses to remove, repair or install any defective, repaired or replaced Product.

Terms and Conditions

This Warranty is valid and applies only when the Products are: (i) properly utilized for their intended purpose as provided in the published specifications, and (ii) properly wired and installed in accordance with the published specifications, building codes, and the latest National Electrical Code (NEC) and applicable UL Safety Standards. This Warranty applies only to the original installation of the Products by the original purchaser and is not transferrable.

The Warranty period begins on the original date of purchase. If a Product is replaced or repaired under this Warranty, the Warranty period for the replacement Product shall remain as of the original date of purchase. Except as stated below, the Warranty period for the Products shall be for five (5) years from the original date of purchase:

- Power Supplies - 2 years

Lighting technology has some amount of gradual light degradation (output and/or color) over the life of the Products. The Products are designed to minimize degradation, but some light degradation and color shift is a normal part of the life span of any LED lighting system. In the event Feeney, Inc. replaces a Product under this Warranty, Feeney, Inc. cannot guarantee that the color or light output of the new Product will match previously purchased and/or existing installed Product.

Feeney, Inc. makes no other warranties other than those set forth in this Warranty, and these Warranties are in lieu of all other warranties, express or implied, including any warranty of merchantability, fitness for a particular purpose, or infringement, except as permitted under applicable law. Feeney, Inc. shall not be liable for any incidental or consequential damages in connection with or arising out of the use of the Product(s) or for any other indirect damages, including without limitation, lost or anticipated revenues or profits, loss of property, personal injury, injury to reputation and/or loss of customers. Feeney, Inc.’s sole liability with respect to defects, at Feeney, Inc.’s option, is for replacement, repair or refund, not to exceed the original cost, of the defective Product.

No person or entity is authorized to make any other warranties, express or implied, relating to Feeney, Inc.’s Product(s), including but not limited to any Feeney, Inc. employees, contracted sales people or customer service representatives; designers or specifiers; engineers or architects; electricians or installers; and retail or wholesale locations selling Feeney, Inc. Products. No modification of this Warranty is allowed without the express written approval of Feeney, Inc.’s president.

This Warranty does not apply to any of the following situations:

- Products that have been modified, adjusted or repaired by the customer;
- Products that have been subjected to misuse, mishandling, misapplication or accident;
- Products that are damaged due to improper configuration, design and/or layout;
- Products that are damaged due to improper installation or connection;
- Products used in an inappropriate location or in environmental conditions (temperature, humidity, moisture, etc.) outside the normal specified range;
- Products used in connection with any components, devices or systems other than those explicitly approved as compatible with the Products and listed on Feeney, Inc.'s website;
- Electrical power surges and spikes;
- Damage from lightning, high winds, hail, flooding, tornado, fire or other "acts of god;"
- Products that have been used in any manner or for any purpose that is not consistent with Feeney, Inc.'s published specifications.

Consumer's Acknowledgement

Feeney, Inc. stands behind its Products when they are used properly and according to Feeney, Inc.'s published specifications. By purchasing the Product(s), the purchaser agrees and acknowledges that lighting design, configuration and installation is a complex process, wherein seemingly minor factors or changes in layout and infield adjustments can have a significant impact on an entire system. Choosing the right components is essential. Feeney, Inc. is able to work with the original purchaser to make an appropriate Product selection to the extent of the limited information that the purchaser can provide, but it is virtually impossible for Feeney, Inc. to design a system that foresees every unknown factor. For this reason, this Warranty does not cover problems caused by improper design, configuration or installation issues. Any statement from a Feeney, Inc. employee or agent regarding a purchaser's bill of goods and/or purchase order is NOT an acknowledgement that the Product(s) purchased are designed and configured correctly. The purchaser agrees and acknowledges that it is the purchaser's responsibility to adhere strictly to all information contained in the published specifications.

There is often more than one way to design, configure and layout an LED lighting application properly to achieve the same lighting effect. Feeney, Inc. strongly recommends that licensed professionals be used in the design and installation of lighting systems that include the Products. The specifications include important information that a designer and installer should carefully review and strictly follow. Qualified designers and certified and/or licensed installers, with access to the final installation environment, customer goals, and Product specifications can make the requisite decisions appropriate for a successful finished lighting application.
